NATIONAL BOWEL CANCER SCREENING PROGRAM

ID number [redacted]

[redacted]

Dear [redacted]

Free test to find the early signs of bowel cancer

Invitation	You have previously completed a free at-home screening test through the National Bowel Cancer Screening Program and you are now eligible to do the test again. Doctors recommend regular screening for bowel cancer and many people in Australia do this test to reduce their risk.
Why have you been invited?	**Even if you had a clear test result before**, your risk of developing bowel cancer increases as you get older. This test can find the early warning signs of bowel cancer before symptoms appear. Doing this test regularly can help prevent bowel cancer or detect it early. If found early, 9 out of 10 bowel cancer cases can be treated successfully.
What happens next?	In the next four to six weeks, you will receive a package containing your test kit. The test is quick, clean and easy to do in your own home. If you do not wish to take part, you can temporarily defer or opt out of the Program by visiting www.ncsr.gov.au or calling the Program Contact Centre on **1800 118 868**.
Do you have any questions?	Visit www.cancerscreening.gov.au, call the Program Contact Centre on the number above or talk to your doctor.

Doing this test could save your life
